Subject: Telegas Machine

From/Location: V. Torasso

To/Location: J. G. Kaufman

During a joint meeting between Columbia Falls and the Logan people, it became evident that the product line from Columbia Falls to Logan would require a higher degree of quality than previously needed for the Terre Haute product line. During the conversation, Columbia Falls expressed the need for a Telegas Machine, which I understand is available from the R&D Department in Chicago.

By copy of this letter, I would like to get the Telegas Machine and its accessories transferred to Columbia Falls. I am not exactly sure what the procedure is, but I thought I would start with you and do whatever is necessary to get this machine out to Columbia Falls.

Would appreciate your comments on the subject.
